"Your committee, we venturely add in to closure, will not overlook the fact that our shelwing, made in the face of the most posset ent and powerful opposition of unlimited means and experients, has been in e for an inestixation of the most point of the most powerful opposition of unlimited means and experients, has been in e for an inestixation of the most powerful opposition of the most powerful opposition of unlimited means and experients."

OUT OF HADS.

WASHINGIOS, June .0—(ongress baving failed to pass the legislative, executive and judicial appropriation bill before the beginning of he fiscal year to which it is to apply, the executive departments will open tr-increw incrining without funds for the payment of any of their employes. Under the provision of the law which forbids any dipartment to expend incide; in any fiscal year in excess of appropriations, or to invove the government in any contract for the future payment of money in excess of appropriations, it is questionable whether the heads of departments have the right to accept the services of their employes with any understanding that they are to be compensated when appropriations shell be made. However, under the accepted legil theory that there are no fractions if a day, it is beld that no embarrasement will follow the failure to pass the bill if the senate, as it probably will, shull to-morrow take up and pass the emergency resolution passed by the house to day, extending the appropriation of last year temperature). In this even, if the president approve the resolution, it will be are date of July I, and, will cover services rendered during that day and therester and its termination. OUT OF HINDS. and will cover services rendered during that day and thereafter until its termination.

NOMINATION

NOMINATION

WASHINGTON, June 20 - The president sent the following nomination to the senate to-day Hugh Smith Then peece Section Cardian, The senate to-day the secretary of the treasury, vice Win E Smith resigned.

THE EAST.

The Hense in no Hood to Debate that Measure or Washington, June 30.—There is no doubt that Handall's tariff by will be reported by the ways and means committee to the house at this session, but in such a disembloweded condition that it such as the ways representation to the session.

session, full meach a discussion would concilion that its author will herely recognize its muthated tentions. That the bill will be considered by the hot see this session, however, seems not at all graduals. But one sentiment, with here and there in exception is expressed, and that is that the time is too short and the washer too write for a pirtuicted debate of the tariff question. It Morrison and to-day "We have not even entire the bull yet, and it is impossible to say what the committee will do with it. I do apply that the committee will do with it. I do apply that the committee will do with it. I do apply that the committee will do with it. I do apply that the committee will do with it. CONCEALED FOR THIRTY YEARS.

M CK L D T LI LI LE

It was to the War and the Home again, and gladen uph I m. War with the notes of the prevenent all round about, the hearty welcome f relatives and neighbors, the kind greetings of frends everywhert. I feel that keep relieu me eet to return after long absence that makes me amost feel yeing a, in und quite bosster out. It is not of the however, I set out to write Wili 103 and pleasure there always come responsibility and tiller. While we are making strides in material prosperity we are contributed with seri- on problems, some of such magnifude that we are almost to dy to surrecmagnitude that we are almost ready to surrender The last hop stasten as a whole was not
priftable in fact, the many it was deastrous
and was one of less. The trop was fortunately
at it, else the less would have been greater.
Some hips that cost is cents per pound in New
York and London, and mix fewer cases e on
lower than that lifeing moself deepy in ar
ested I determined upon visiting the 1 12/18h
and New York hop yards, after the close of the
expession, and have home so, and now hip his expesition, and have thone so, and now have just returned after an eight months absent in it transpand drive of 150 miles through the hipports of kent and New York, and a month in the "Brough," the hop market of the yet of the rough; the hop market of the yet of the rough; the hop market of the yet of the rough; the hop market of the yet of the rough; the hop market of the yet of the first which hop growers of other countries. It is of this trip that I propose to write write the rough and how I was received and with the conditions, what the compursions how we appear adorgated the "old hop distinct," and with the man fairly hope for the four a sequent acceptance of the old distinct, and with the man fairly hope for the four a sequent from this experience. The oncent is of the crop is a very disturbing element in the index of the hope growers of the old distincts. In former years in Fogland a givernment day was collected on all hope grown in the king down hence the goad yield was known in the long of each year. This furnished an apparatually be betting in July and August as the the vield application of the heating and hinal results the great uncertainty as to the yield was made an apparatually as to the yield was made apparent. One year if the period of the best rin over a treat was in the apparent. One year lively was over twelve and the best in August were to be or equipit over one, "You see," said an English 101 greys. I, "camine when prices are high we don the nucle to sell. The said of the same with the same with the same with the same with the same when the prices were up. Much the same with the same with the same with the same with the same when the prices were up. exposition, and have bone so, and now how just returned after an eight months' absence in t NEW YORK HOLGROWERS.

Though not to such a great extreme, never but are having an absolute total failure, and that caused by line, of which I saw many and will mention later on — To see the hop yar is of heat and to mingle with the growers and inhorars, I took a veritable foot trains through that region and the adjoining county, occupying nearly three days, traveling along the routes, across three days, irrecting along the routes, norwhile's ind in every conceivable threat in Infect, one cannot travel along the risks 'ring I ad without that education and traveling at almost to punds of the rouses. I two this seem that the 'risks' will a timal e in straight real even when 'risks' will a timal e in straight real even when 'risks' and the cold real even in the other early will be defined in the day of the cold real even and the cold real even an

and have beened. The Kent district is of a sixth p air firming arlog. A flone p in 1 c tambe chlamed a view of three miles in xt. The hop I was were as structured as a new of three miles in xt. The hop I was were as structured to an as level (so far as cultivation can make it and as smooth as a house it or an lively thing did ne up!" in as neat, tidy style as like a fustudion, geninus orders, housekeeper. The fruit garden comprised about the same varieties as we grow styles, pears, planes, cherries, by riss at I non-ster fields of currents all in finest cultivation. The country is undoising with a general so pse had gave extensive views, doted here and there with sold stane or bit k farm houses and outbuildings, girn; the appearance of wealth, comfort and cristments. I found that such was not the case, however. The greatest depre stan axisted the farmets had been and were losing in the work makes. Hop growers were so low that they could not go have a wages were so low that they could not go have a wear and the work in the country in the case, and the work in the case and more of the timen were delenged, which was on the case, however the greatest depre stan axisted the remarks had been and were losing in the acrea and not by the pound hence I fo all not a little difficulty in Instituting a comparison of the father numberous comparisons I found were pounded for hops at the same cost as the Fugish grower can produce and lay down two pounds. The English hops this year were of poor quality, and many thousand bales that cost 15 cents per our unider. Hence the loss of the laglish grower was simply frightful, and the discouragement and financial embarrassment great. A small reduction only of accerge had taken place, though there had been a large curtailment of man tras, which means decreased yleid—next year settan and probabily this. I if were not that a tother branches of agriculty is the result to be the less twored districts would instantly be deterted. As it is they are not that a tother branches of agriculty as a branches of agricultu e in England were as de-pressed and unprofubble many bop yards in the less favored districts would instantly be de-stroped. As it is they are merely binding on with a vague loope that the conditions will clange and that we of America will couse to send them hops in such large quantities and that the extra ditho on hop land may so absi-ied A as it is, already half or more of the tap-letes have been abandoned and the 3 it is thrown upon the bands of the land owners. If prices should remain low this year a large to

IN NEW YORK YARDS I traveled through the heart of the hop region of New York, from Albany to Cobleskill, Goop erstown, Richfield springs, Waterville and thirty and saw any thousand acres of high Here the neglect of culture in many yards was estown, Richfield springs, Watervie and there, and saw any thousand acres of hipsilhere the neglect of culture in many yards was very apparent. The reduction of acreage and incre of culture—assuming that other conditions were the same as last year—would undoubledly reduce the hadd fully infless per cent. I see an ince of culture—assuming that other conditions were the same as last year—would undoubledly reduce the hadd in some places nee on every lend and increase there two deep. In each year in ing. It leasn the constity for a vertice them as the new that there will be a risk flow of the same time new that there will be a risk flow of culted hence there were the change and so hade the atthet of the same time of year when the undouble decided the same time of year when the undouble and so hade the time of the same time of year when the undouble and so hade the time of the same time of year when the risk of the first of the same had a large will be a set of the same had a large will be a set of the same had a large will be used to the same had a large will be used to the construction of the proposal approach the construction of the proposal approach is an interest of the construction of t

### A PLEA FOR THE LIQUOL TRAFFIC

Orymin, June 1 150
To the Lipton of the One origin
By this time you no do lit have full tells graphic reports of the result of the rote of yesterday on the question of 'for' or "against' the local option isw, which really meant for or against production. In all places of business

the local option law, which really meant for or against production. In all places of business of commercial importance, especially in the integer business centers, the vote was most decidedly against, and this, as a matter of principle, was certairly as it should be.

Since the presence of the act, which as a law is not worth the paper it is written on, I have carefully observed the time of battle, the discription of the oral option statute. Pad local option it is oral option statute, and local option it is oral option statute, and local option it is oral option statute. Pad local option it is oral option statute. Pad local option if it is oral option statute. Pad local option if it is oral option statute, and is resulted in a more deep cable into learner, fanatical spirit was never displayed by the friends of 130 in easure than was sendiment and shown by the friends of prolibition. They left in thing undone, there is no was such ones to be in the first of 130 in account is their purpose. The flet is in the first of 130 in an about a statute as a convey to he andlenue the rewn refutation if ever man caused religion an appear in an olitous and repulsive light to sincers and por humanity, by Wattle did. All I induct the worshored, all kinds of heat was real to increase the viting power of probabilion.

Softhetry was meached, but passion, prepared and measure were upon ad to, and all this in the nume of invisianity. No wonder there is excepted, almost publisher and indebit Christianity in the light of the probability and is the free wid, and the Amenicana know be ter. They know that their tood is a tood of malate, of men; that he gave this world and what left in it is the creaters. But the mode man like unto humalif, ear or with their tood is a tood of malate, of men; that he prode man like unto humalif, ear or with their tood is a tood of malate, of men; that is the prode man like unto humalif, ear or with the problem of the problem of which the status of the problem of the problem of the problem of the problem o

give him not chains but freedon, not cross of ever sing spidon but pro mos of swell-stage of the continuous of swell-stage of the people questy taking in the stage of the present of the transits would not a down upon the to but as a maste of fact to siness people had been no dening by, no demond after, no lying, no uppear to position and an reason. There is mysted that deliberate discussion. They hold no mee lings to exite the weak, they seek no unhold all mos, but they a films is not a question of region to not they are the revenue, of finance in a question of region and points dibesty. The shockine that conduct the what we shall drink, or a discussion of state, of seconomic tendency, of personal right and points dibesty. The shockine that conduct the what we shall drink, or a discussion from the same pinciple, say what we shall were in the tenching that seeks to prohibit sching and drinking of inqueries with not six ptilpt subject all taddid and action to the will sinds a dord rinking of the meets of the me

It a it g and j quishing the watch maker 1; tace he made and still the which implet the block.

The wonder is that so many men of good cter and fair capacity should be eager to enter the government civil service. The ply is small, though the hours are short, and the result is that the government clerk becomes a helpies man of rentine, so that when he loses his place ie is face to face with the cold world and in) both indeed to lace which the cold when the first book in his hands to how or cut his way to competence for old age. In nine cases not of bon it is a personal calamity to he appointed to a government clerkship. It is a life without compatition or struggle for superiority, and its natural decisions. drift is away from self-dependence. The knowlman than a discharged government clerk. Worse than all this is the miserable, cravenpirit that is cultivated in the denotiments by the petty tyrungryol insolved superiors over their poor subordinates. Every careless word of a talkative clerk is reported to his immediate thief; spies and gossips are encouraged to play detective on their contrades in the department. The common question is "who is your backer and how much influence has be got." A man y man soon becomes a cynic in the government men and women don't live than the average vernment clerk at Washington, or in the great They intrigue against each days that seeks to escape the lash by licking his where the superiors are too thoroughly to welcome or accept servilly from the r mates, or a self-respecting clock is too useful to be dropped out, because of his respect.

ful return to be a toad-eater, but as a rule hunature is so vain and weak that it loves to fiead before his chief as a Hindoo might before

treasury ten yeare ago was a most conspicuous xample of the demoralizing instance of eterhomage upon the chief of a bureau. Some of them were women, and it was absolutely dekening to notice how the daily homage of these 1800 people to their chief not only demor-alized them, but corrupted the good sense and manliness of the chief, so fatal at last was the constant feeding of his vanity and self-consemence by seeing 1500 subordinates every moreng duck their heads to the chief, who hald employe at Washington, In Germany men of scholarship and literary attainments ac-cept government eleptishing at amail sataries beal standing, no matter how blue his blood or ersatite his culture. He is a government clark. nd every coarse haured congressman treats him a if he was "a little better than his dog, a little ower than his borse." And so the average lower than his borse." And so the average government clerk is a second, down cast, shabbybreaks his back prematurely trying to sup-it a wife and a houseful of children; if he is warse fellow he swells with his breath the ze that is the motive power to the gin mill's ils, or drops his dollars into the bottomies: of the brothel and the fare bank. Taken all rmities of a Bohemian without the enjoyment of that personal independence the Bohemian can call his own when his copy is accepted and

THE STAGE AND THE PULPIT.

Anna Dickinson, a good woman but an ex-travagant talker, once praised and defended the stage, placed it above the pulpit. Among other things the salds

any respects the influence is not as benef The aboundity of this argument lies in the fact hat the primary purpose of the stage is success-all entertainment, the production of a play that fill catch the largest number of pennies. Moral instruction and appeal, on the other hand, is the trimary purpose of the pulpit. It is nothing in avor of the stage that a theater should "dray Flash novels sell faster than "Middlemarch. ary, it is ensire to entertain men than it is to capture their reason and judgment, purify their

hold it, is so far inferior to the pulpit in its pur-pers and methods that it is a sure sign of a foot-less church when you find theatric tricks of style in the sermen and the affected unto of melodramatic intensity in the preacher's voice Sensational principle is nothing but the church feaching is cap to the theater. The pulpit that has the smallest surgentiveness of the theating methods and purpose of mere enter-tainment is the pulpit of the shaplest and most same at Christics II. The many the same of the shaplest and most same of Christics II. The many the same of the shaplest and most same of Christics III.

carrest Christic It. The man who wants a pulpit that will keep him accused and excital letwern laughter and neart all the time is just the man who will surely degrade a church with theidust, for his about is naturally the thanker, not because of the speciment moral homilies that are senducibled in between odious vices; Franch fractife his testing and objects. French fire-gill, but because he has no care of thought for serious illumination. He only wants to be amused. Any attempt to claim for the stage superior moral influence to the pulpt is pure extravagance. The stage is not the stern, mexaggerated voice of moral principle and purpose, like the pulptit it is nothing but minustic and demand to the stage of the st and dramatic art. The church, if it lives up to its high office, deals with the sincere substance of things, while the stage is nothing but their shadow dance. Actors of either sex are sometimes most excellent people, but we do not be-lieve that "the best men and women in the world are actors." There is something essen worm are across. There is sometiming essen-tially demoralizing in a business that demands the daily playing of a part, sometimes high, semetimes low. The result is to make virtue or semilimes law. The result is to make virtue or vice seem nothing but a bit of acting, and all the world a stage. The constant moral wear and tear of such an experience would be, in most cases, to make all the men convival copies, like Pai-staff, and all the women Becky Sharps.

ing, and as a rule there is no other profession of the same grade of intellectual standing in which more people marry only to be speedlij divorced. The morality of most popular stage plays is contemptible; frequently it is simply obscene in that worst sense when the fifth is the fifth of "Fron Fron," "'amilie," and the whole list of "Led Astray" dramas. There are coarse lines in Shakespeare, but they will not hart anybody, for his moral sense always rings true metal. He never apotheosizes Aspasias, Lesbias, Phrynes and Messalinas. The heroin of Shakespeare are not decourized Magdalaus, nor are his heroes glorified bandits and gilded pirates sinking with their one swaggaring virtue the memory of a thousand crimes. Juliet, an honcet distracted wife, kills herself, because her honest distracted wife, kills herself, because her feuband is dead, bufciscopains is painted in true colores; she kills herself met bisselfe her loyer antony is dead, but because the is to proud to kies a cruel conqueror's feet and make a Ro-man holiday. Shakespeare grids no life of, shame with fictitions splendor, he whitewances

no foul life with sentimental colors; but the morality of the average popular play, while free from Shikespeare's occasional superficial coarse-ness, is lotally destructive of the manly dostrine

nees, is totally described to the limit document of self-reprach; it is the sugar Lil of extenda-tion for everything from prostitution to piracy. The fallows who always rusil to the theater and yell and cirr quickest when the actor says "he who will lay his hands upon a woman save in kindness," etc., are the roughs who are always abusing their wives or their women, but the quict man who never thinks of domestic violence, doesn't cry or shoul at this fusion, which is a fair illustration of the utter nonsense it is to talk of the theater as a great moral power. It is at hest but a very fine intellectual entertair ment, but it is like many other things that the world deem of absolutely require. The mean morality of the stage-is reflected in the fact that the women of New York went wild over Montague, a handsome but mean, dishon-orable follow who runed a woman, made her a mother had then deserted her. Stage life is at best very demoralizing, and it cannot be deader ized by the idealization and extravagant praise

"GLITTERING GENERALITY JOE."

The Rev. Josephus Flavius Cook is, in the rheterical sense, we suppose, an eloquent writer, but he not only resorts to his imagination for his facts sometimes, but also when his mental life is because his ancestor, the primitive German, was a chaste person before marriage Now the Saxon was always a tard fighter, a great feeder, and a great drunkard, and the primitive barbarian drunkard is quite likely to not drunkards nearly all drunkars s are unchaste. as followed by a troop of reeling saying grinning at you with a licentious iter. It is not an easy thing to penetrate the mystery of God that suffers certain very low and filthy civilizations to have great tenucity of life, Etc the Chinese, while a seportly intellectual civilization, like Greece is but a bright exhalation in history, and animal or mot, it is quite certain that the drunk

A remarkable "fiad" is reported in Pike cond-ty, Illinois. A farmer, while "loughing over an ancient Indian mound in his field, struck a large slab of limestone beheath the surface. He litted the stone and found becastly the yault containing the dust of a skeleton. In the vault were, ing the dust of a skeleton. In the vault were, also an enormous stone; and weighing fiftee in pounds, many stone arrow and spear heads, and a singular vessel of copper. This vessel was wrapped in a mass of fabrick, wen it kintledge different material. To the top of the conscibitted cover was rivated; about copper ring. In the vessel were three highly pollshed istones, one out, one obsidant and one jusper. The stones were nearly agginabapet. The farmer and he men day elsewhere in the mound and discovered to the covered who have a covered who have the covered who have a covered who have the covered who have the covered who have a covered who have the covered when the covered who have the covered who have the covered who have the covered when the covered who have the covered who have the covered when the covered who have the covered who have the covered when the covered who have th covered another vault containing a badly decayed skeleton. Around the skeleton were many fine implements, including a pipe of stone, on which was carred an expressive human face, a copper ax weighing nearly a pound, three copper spear beads nearly a foot in length and an inch broad, a string of stabty-ix copper beads, and other articles. Prof. McAdams, of Alton, the well known archaeologist, has secured the entire col-lection, embracing over five hundred articles. He thinse it the most noticeat le find of the sor. which has been made in years.

The chairman of the democratic state central mmittee desires to make anthoritative denial of the statement selegathed from Washington that Got. Pennoyst has surfit on a letter or letters to that city on elsewhere sinting that the Chinese destion with the only lesses in the late election the Oregon. Mr. Pennoyst was certain the original selection the Oregon. tainly as outspoken suchts, assume in regard to the forfulure of uncorrect regard and grants as he was upon the Chinese question, and he gave other local masters, egual prominence. While I is true, as all our people know, that the question whether the adjaintstration should receive "endorsement" or no; was not specially on the temperatic platform which contained a resolution expressly approving and commenting the administration of President Cleveland.

From several fundities received it seems that! the object of the election in Washington territory is not clearly understood by everybody.

The people of each precinct or incorporated town are not voting, as one inquirer suggest, for or against local option, but for or against prohibition of the liquor question under a local outlon law adopted by the last legislature. Under this law each precinct or incorporated town decides by majority vote for itself. Where pro-biblition fails, licenses to sell liquer will be granted to all who apply as at the present time. The discussion on to the popular vote, which seems to have led to confusion, is simply one seems to have led to confusion, its simply one of curlosity, interesting because it exposes the relative strength of prohibition and anti-prohi bition sentiment in the territory.

Linker men in California, as well as in Oregon, who watching with great interest the "local aption" election in Washington territors and, it is needless to say, took a hand in it. A telegram from San Francisco eigned Lillenth... & Co./and aldres-el to Isaab Pincus, was dis-played in poster form at Tacoma. It ran thins Errorers will be need Washington territory hor s If probabilion passes. Tell hop growers.

The result of the election in that vicinity would seem to show that this threat had great influence. The spirit of a community is not very bigh when such a threat can bring it to its

In Union county there is a contest over the vote on some of the local offices, which delays the (fit in) returns on the general ticket. Hence the clirical returns on the general ticket. Honce the secretary of state is not ye, in receipt of the returns from that county. Grant county, up to Tuesday, was also unreported. But thore will be no change that can affect results as hereictors published. The majority for Strahan, over Waldo, probably will not be more than two hundred, in all probability, and may not be much in excess of one hundred. There are he was the secret was the secret of one hundred. much in excess of one hundred. There can b no doubt that Waldo was beaten by boggs

The vote in the board of trade against the proposition to revoke the action surreptitions, and illegally taken in that body on the Northelm Pacific land grant represented severy person in the city who could be "drummed up" by the burean maintained by the corporation here. The expunging resolutions would have been carrie; by a much larger vote but for the timitity of members who fear the corporation's displacaura.

The several thousands of Troy collar girls blenging to the Knights of Labor missed receiving \$625,000 during their month's strike act have now returned to work at the manufactur-

Senator Stanford is trying to secure Gen. Francis A. Walker of Boston for president of his new California university.

The supreme court of the district of Columbia has decided that luthers are foreign dilizons. The favorable testimony of thousands should convince you of the merits of Hood's Sarasparill.

SLIGHT PUNISAMENT.—Judge Jendy rester lay annot need decisions in the case, of the United States vs. James F. Bewier and R. Bewier has son, and also in the case of the United States vs. James F. Bewier. In the first case the parties were charged with obstructing the passage of the United States mil. The whole business were charged with obstructing the passage of the United States mil. The whole business were charged with obstructing the passage of the United States mil. The whole business appears to have been the result of a little too much tempor 2nd a little obstruct. All the charge and bis son were driving a loo of hogs actuate a between McMinuville and Sterie an, came up behind about the time the hogs had crossed the bridge and attempted to drive by a through the drove before Mr. Bewiev by the bridge and attempted to drive by a through the drove before Mr. Bewiev proposition that the crimals had reached a proper piezo in the road for the stage horses by the bridges and stepped them. Rams naturally lost bis temper and instead of both parties venting the fridges and there are to the occasion and making an end to the matter them and their knus went and made complaint a painst Bewiey for obstructing the passage of the mail. This hopponed two or three years ago and of contast there has been considerable explosed in feeling lawyers act, and the end of it is that both Mr. Bewiey and son are found guilty and time \$10 each. The second case grew out of the first After Runs had commenced suit scalinst Bewiey the latter was wrathy and on meeting Runs on the bighway an alterection took place and each chains that the 4 ther fired two shots at him with a pistol. Kine had Bewier arrested on a charge of assault with intent to \$11. The judge found him not guilty. There was a great doal of contradictory swearing in the Ease which was very perplexing. Judge Deady in rendering his decisions said thailed had never before realized bow great a convenience it was to lavy an irresponsible body like a jury to give a decision in

sponsible body like a jury to give a decision in such cases.

Victors and Chambal Poterners,—The closs season for deer ended yesterday, but for grouse, phenanatis and qualit it does not end till the 15th. It is wel known, however, that there are a number of persons in this city, principally french "macks," fetlows who reas bett no laws, homeon or divine, who have atready been slaughtering the young grosse in the country along Johnson creek and in other places not far from this city. These centemptible wretches go outerly in the spring and net trout before the end of the close season and now they shoot hair grown, unfledged birds. The vesies hounds should be shot, by people whose lands they receptase upon, and they surely would be if people how want despicable fellows they were. Living in usury off the searnings of the degranded women whom they make treit slaves; they have to make a pretense of earn tga living to lessen the chair cas of their being arrested as vagrants, so they, hunt and fish nut of season and catch from any be such as to determed, the more brazen they become, but it is to be hoped that some of them may be caught vibrating the game law and purished on that scare at least.

Precular Electron Processings as a season was

that some of them may be caught vibiling the game law and purished of that some attenst.

Productar Electrons Proceedings.—At the local option elections in Chensy, tidre was a disagreement between the judges as to the propriety of holding the polls at the place called by the causity commissioners, which place was the city jeil. Two of the board adjented and went to a vacant building about three blocks away. The other one renained, swore in a new set, and opened the polls at the appointed place. Consequently there will be two returns made from the same precind. The two returns made from the same precind. The two returns made from the same precind. The two returns were determined to hold the polls in the place called they manufactured and took him to the jan. The city marshal, who made the arrest, inocked over the tables and created all the disturbance he could, forcibly ejected the ladies and gentlemen in the anterior of the jail and lock him to the jail and locked the outside door, a door that had never been locked tefore. Every advantage possible was taken by the liquor men. As it is now, both partners claim the victory.

Hosse Browners—Yesterday morning at 5 o'clock a valuable horse belonging to Ragatta, an Italian gardener, jumped off the Stark street ferry on the east side and was drowned. A man in the employ of Ragatta was on the way over with a wayon load of vegetables. On boarding the ferry boal he took the bridle off the horse to lett drink, Just as the boat started the horse became frightened and started to run. It plunged gainst the chain stretched across the boat in front of the apron. The chain broke and the animal wenthead first turo, the river, wagon and all. The weight of the wayon, and in the course of saveral hours the littless carcass of the actima, the wayon, etc. were pulled to the shore. The horse was liberated from the laurness and allowed—5 float away. There was no damage to the wayon, etc. were pulled to the shore.

from the harness and allowed so float away. There was no damage to the wagon.

VERDICT SET ASIDE.—About two years ago
J. H. Fisk brought sut against D V. B. Henane, Edward Martin and others to recover
\$60,000 commission for finding a purchaser for
\$60,000 commission for finding a purchaser for the
grant raid of the case Fisk was besten, and on a
second trial some two months ago before a jury
he get a verdict for the amount seed for. The
defendants then came is with a mc fon for judgnent, netwithstanding the vertility of the
ground of errors and that it was conteary to law
and evidence. Vesterday Judge Saniti sustained
this motion and gave judgment for the defendand, or in other words, he set aske the verdict
of the jury in Fisk's favor for \$60,000. The plaintill, Fisk, was allowed until the first day of the
next term of court to file a bill of exceptions.

MINING MACHINERY.—The Sumpter Valley
Mining Co., composed of parties residing in this
city, have contracted with Messre. Smith Bros.
4. Watsen for a ten-stamp quartz mil., together
with the boilers, engines, etc., necessary to run
ii. The rull is to be erfected on the company's
quartz ledge in Sumpter valley. Saker county,
where there is already 200 tons of rece on the
dump, which it is cont dentity expected will seery are well under way, and it is expected that
they will be erfected and in readiness to begin
operations by the 25th of July. There is, a pros-

perations by the 25th of July. There is, a pros-ject of ther m.is heing ordered before long for several miner and it is pleasant to know that our local manufacturers can specessful; compete with those of other clines for this work. STRANGS F 4EAF.—About 6 o'c oel yesterday

STRANGE F (EAF.—4.bout 6 o'c oci pestorday morning r, large upon mared the Portland general hosp lat and passed quickly and qualify through the building, tapping at the door of each room and riusing the lugars, with an order to get up at mea and have the beta made. He somewhat studied the hades an isupprised the gentlemen, who were not accustomed to this botel style of being rossed out at an unseemly hour. The impromup proter at last moused Mr. Woods, the manager, who hastered to don his clother and call yell to see who tug intruder was, but before he could get a slight of the fellow be had gone tway as quielly the came. He is probably some crank who has at one time been a night watchman at a hotel

Contesting an Electron,—The prospects of an exciting contest over the recent election in Union county is causing considerable comment Union county is causing considerable bomment in that section of the country. The papers have already been served and set forth numerous irrevulatities. The poils in one predict swere not opened at all, in a second they were logisted over a mile from the place designated by the county, in a third over a quarter of a mile. Instances are cited of illegal voting, and taken altigether the contestants imagine they will have altigether the contestants imagine they will have altigether the contestants in the contestants in the case now stands, secure but one representative, v.z., Frank Discussional in the contestant of the c

LEASED HUNTING PRIVILEGE.-Mesure, J. W. LEASKI HUNTISO PRIVILEGE.—Messrs. J. W. Whalley and George I., Curry have a least a fine shooting privilege on West lake and are making preparations for a vigorous campaign against predatory bands of nucks expected to invade that place during the coming winter. They have sent down lumbr. and other material to build a "shooting box! on Long island, in the lake. The building will have cooking and sleeping accommodations for half a dozen and storage for decoys and other implements of the wichnes." Happy wil be those who ge achance to lunk up with the proprietors of this sing box and have a crock at the dicas and the demijohu.

THE NEW COMMENT.-The city charter provides that a regular meeting of the common council, for which no notice shall be necessary, council, for which no notice shall be necessary, must be held on the first Monday in July nexfollowing any general election. At this meeting a president of the council shall be clocked, and it being a regular meeting, any other business necessary may be transacted. As the term of James Lotan, fire commissioner, will have expired, there will be a successor to be elected, and as the new councilment take their seats at this meeting they will probably be appainted on committees. It is not likely that much nonline business will be transacted.

PROMINENT PROPERTIONIST STREETED.

P. I. K. Funk, editor of the Hornicite Review, and the great national prohibit on paper, the Vote, and member of the publishing sirm of Funk & Wagnalls, New York, will arrive in San Francisco July 21, and in Portland, 27. He will say here one day to confer with the cashers of the prohibition party, and will probably address a mass meeting at night.

PECULIAE SUCTEN DEATH.—Last Saturday might W. H. Kincald, who lived about twelve miles from Walla Walla, mat death under peculiar circumstances. He was riding homeward in a wagon with two men, and drawing a revolver began firing in the air. Suddenly he arose and exclaimed: "Hoys, no man camtell how long he's going to live," and tell back senseless in the bottom of the wagon. His companions drose hastily to a physician, but all efforts at respectation were unavaiting. The cause of death was apoplay. Kincald was about 15 years old and left a son aged 15 years.

aged 15 years.

To GOLLIPING'S GEOVE.—There will be an excursion up the Williamette river to Goulding's grove, by steamer Multanmal, on the 31 of July, given by the ladies of the Congregational and Baptist churches of Oregon (Tiy. This will give the excursionists in opportunity of passing through the locks, and also a fine view of the falls. This steamer will leave her dock at the foot of Washington street at 7:30 o'clock. Fare for round trip from Portland and joints between Portland and Oregon City, \$1; thidren under 12, 60 cents. Refreshments on the boat and on the grounds. A fine brass band will be in attendance.

tendance.

Not indicated the grand jury have resumed not a true bill in the case of Sung Hack, a Chinaman, who was arrested for the larcomy of \$126 to from Mrs. A. C. McCirmack, who kept a highligh house at the corner of First and Columbia streets. Sung Hock did washing for Mrs. McCornack. She left the money in a purse, on top of a bureau, lowered over with bur hat. He entered the room to get some clothes to wash, and shortly niter his departure the indy missed her purse together with its contents. This was the only schlence in the case.

WOMAN VAGRANT ARRESTED. Mark Planck.

WOMAN VAGRANT ARRESTED .- Nary Biakely the old beggar woman, was convicted in the police court resterday on a charge of vagrancy. ponce court resterday on a charge of varance. True to her calling the tried to beg off, telling the court she would go to Montana. When asked how she would get there she said she would walk, and Judge Dement told her she would be allowed to start on hor truing at the end of twelve days. The woman has been admonshed several times by the police to mend her ways or else leave the city, but she pail no heed to the warnings.

ARRESTS FOR THE MONTH.—The police mails 121 arrests during the month, as follows: Druck, 47; gambling, 1; larceny, 9; disorderly conduct, 37 gamoing, 1; arceny, 9; disorderly conduct, 8; assault and battery, 8; begging, 4; gathering swill, 2; fighting, 6; vagrants, 11; li juor to a minor, 1; trespass, 7; soliciting for a hotel without license, 2; insant, 2; held as witness, 2; deserter U. S. army, 4; obtaining money under false pretensas; 1; keeping a bawdy bosse, 2; dubeive language, 3; prisoners en route, 1; maintaining nuisance, 1; carrying concented weapon. 1 weaроп, 1.

weapon, I.

Lost Child.—A widow woman named Mrs.

Fay, residing at Eightsouth and Norsets, reported yesterday to a police officer that her young daughter, aged Tyears, had left homen at solciock in the morning and up to 6 P. M. had not been heard of. Mrs. Fay made dilignit norther to the purpose of learning the wheneabouts of her child, but at last accounts without success. Naturally the lady felt much worriest and very anxious to ascertain what had become of ber missing girl.

Parally 2019.—Lost Senday J. D. Faringt, who

of ber missing girl.

PARALYZED,—Last Sunday J. D. Kuright, who had charge of a party of Western Union line repairers between Roseburg and Coos bay, was stricken with paralysis. His entire left side was affected, though the organs of speech are not seriously impaired. He was brought to this city yesterday afternoon's train and taken to the Portland general hospital. His conditionat this time gives little hope of improvement. Mr. Enright is about 33 years old and has served the company for some time.

STIL ARCTURE A. A. College, A. M. College.

STILL ANOTHER. At 8 o'clock Saturday norming, July 8, the steamer Wide West will morning, only S, the stoamer Wide West will leave Ash street dock for a trip to Multnomah Falls and Lower Cascades. The excurs on will be under the sauspices of the members and triends of the German M. E. Sunday-schol, and the round trip will be, for adults, Si on A, and for children under it, 50 cents. The proceeds are to be devoted toward improving and repairing their house of worship, corner North Eighthard D attests.

SUPPLIE NORMAL CLASS.—Mass Kate Tupper will conduct a normal class in this city, begin-ning July 12 and extending into August. Previous to coming to Portisma Miss Tupper laugh in normal schools six years and has had extend and the reduced by years and not and extended experience in summer normal school work. Her plan is to make the work suit the reeds of young leachers. This is the first time this work has been attempted here, and therefore offer except onal opportunity for 'pedagogical training.

ing.

COLLAR-BONE BROKEN.—Yesterday afternoon
William Musgrove, the well known dair, man of
Sanvie's Island, was in the city, driving a young
coll to a cart. The animal was skittleh, and at
the corner of Sixth and College gave, a lunge
which threw Musgrove to the ground and broke
his left collar bone. He received surgina treatment and them left for home.

TELEPHONE TO LUMCO.—The town of Twaco is over 115 miles from Portland and three years ago was almost inaccessible as compared with to-day as to traveling. Now the Olympian and Telephone curry passengers there in ide of seven hours, and the telephone connection brings us as close as the "phones" de at our own doors.

SERENADED.—Arthur Kohn, the cloth or and SERFADED.—Arthur Kohn, the clothly and hatter, was esremaded last evening at his store, corner Second and Morrison streets, by the Roseburg Junior hand, where they discoursed several popular airs, which showed the bops to be thorough musicians, and was a treat to the large crowd congregated in front of the store.

G. K. Grimes, of the Grimes house, Catsop beach, is in the city.

Mr. John D. Wilcox has returned to Portland and will probably engage in the practice of law.

H. E. Brooks, of this city, called at The Organostan's New York branch office on the 22d instant. PERSONAL.

instant:

Mr. Ernest Barselle and Miss Lillie Arnold were married last night, and will go to house-keeping in East Portland.

A. B. Rickey, late bookkeeper for Chas. Kehn & Co., haves to-day for The Dalles to engage in business. He will be missed by his associates in the rod and gun club.

Miss Lillian E. Pool, who has been attending Weilesley pollege the past four years, returned yesterday to her Portland home where she will spend the summer vication.

Marks Wilzinski, who sneat a portlag of last

Marks Wilzinski, who spent a portion of last winter at the Hot springs. Arkansus, without good results, leaves on the oth of July for Foley springs, Oregon, for a month's stay.

VANCOUVER AND PORTLAND. Special Time Table for Mozday, July 5. The O. R. & N. Co's steamers will run as follows on Monday next; leaving and arriving at Ash street what: Leave Vancouver. Leave Portland.

1:80 A. M. 7:30 A. M.

1:00 P. M. 11:30 A. M.

And leaving Portland after the fireworks in the evening for Vancouver. Hound trip tickets 20 cents.

TAKING TIME BY THE FORELOCK .- A vary loving couple, well-known to the members of the Taylor street M. E. church, stole a march on their friends on Monday morning last by quietly securing the "bridal chamber" on the Olympian "against all comera," for the Taylor street church excursion on the 5th of July. We would advise the young folks to lay in a good stock of lemons for the trip so that they may be prepared against a passible sea sickness.

We shan't say who they are, Because the word is "mum;" No! Ask your own mama, Or ask your own yumyum,

## DC YOU KNOW

That our Great Clearance Sale is a Great Success? The reason of it is that we are doing as we advertise. We are selling at the Very Lowest Prices our entire stock. to close out Summer Goods on hand. We have marked our windows fall of goods, and we give you the same goods inside our store. We don't throw out batts, as many stores usually do.

DC YOU KNOW That we are selling Boys' Sellor Salts, nice fine flames, blue or brown, at \$1 75, \$2 50 and \$8 25, which are really worth

double 'he price?' DC YOU KNOW That we have a fine line Boy's Imported Che-

viot and Tweed Suits, light or eark colors, at 4, 5 and 26, that have always sold at 6, 7 and 881 DC YOU KNOW

That we have Boys' Waists, new styles and nobby patterns, at 50c, 75c and \$1 that you have to pay for elsewhere 1, 1.25 and \$1 50!

DC AOO KVOM That Boys? Knee Pants, separate from suits, are now selling at 75c, 1 and 81 25 which are worth double the price?

DC AOU KNOM

That there are thousands of people who do not read the faily papers, and if they did they could not tell you where KOHN THE CLOTHILE AND HATTER has his immense state!

DO YOU KNOW

Why? Simply because they squander their money at some one-horse concern, who is not up with the times, but who has the same o d-t me-goods that were made 20 years ago. 1

DC YOU KNOW

Why we have a Gleerance Sale twice a year? The reason is, because we have new ideas; we are modern, not ancient, we want New Goods all the time. This is the end of the summer season. We don't want to keep our summer goods to sell in winter. We want to sell them now, and the rush and crowd at our store daily proves to the public at large that we do as we say.

DO YOU KNOW

That we are selling men's summer suits at lower prices than some merchants here

can purchase them for? DO YOU KNOW

That 10, 12, 14 or \$15 will buy a Nobby Sult at our store during our clearance) sale? We want everybody to call on us, whather they buy or not. No trouble to

show goods; picnty of salesmen to attend

DO YOU KNOW

That we are selling Men's and Boys' Straw Hats for half what they are really worth? If you don't believe it, come and see us. If we can't sell you a hat, maybe we will give you one. We have so many Hats that we have to get rid of them some way, and that is why we are selling at such Low Prices.

Our Country Patrons

Will by cared for in the best minner, if they will drop us a line, tell ng us what they want. We will send them samples of Men's and 15 ye? Suits and rules for self-measurement. When ordering men's samples tive thest masure and state whether for seck or frock coat, and for boys gire the age. Our Illustrated Catalogue mailed free to any address.

CLADI TO DO. It is agreed by most men who profess to know anything about it, that when women get to-gether for a chat this main topics discussed are dress, servants and children. Some vary these subjects with servicits, children and dress, but in the opinion of most males dress forms the main topic of conversation among the fair sax. Men are supposed totreat the matter of custom and fashion with coatempt, but as a matter of fact they do not. They give it more attention than they are willing to admit. Take the well-formed man relecting a suit. Bid any woman ever show greater or neem about style, cut, finish, buttons, etc., than he does?

Knowing this, we have taken the atmost pains in the selection of our goods, and in the opinion of most males dress forms the

As it will hoped for the best and borrowed as little trouble as possible and after he bide. Nora good bye at the time the non-station he worked harder him usual. She whote to him from Ningara also from New York, and her epistle from heatter, lace reached him about the time she went to Newport so he was no doubt thinking thout her a creat deal during the very hour she spent on board of the Eelis. Before the steamer reached Coaster shar bor island ind the quaint old town came. situati n wa not a felicitous one for him

disconsolute mother that life's warmest well cone was according to the poet found in an inn but tild good lady looking at the bire walls of her narrow bedroom hung her harp on the willow for good and all and wanted to know why they had lef their looks home in Lakeside.

I am trying to remind myself said that we have come here on a pleasure than

trip
When Nora awoke, late next morning, the sun was shiring brightly through the blinds and the pand on the stand before the ket se was playing v gorousiv. She radized that she had reached the Micca of her fond that she had reached the Micca of let fond for and she rose and dressed with 1 deep fond for and she rose and dressed with 1 deri mation to make the most of it. If all in let it before noon she and her pa eats intered the fan ed Casino Bassing through the arched entrance they beheld with an price and delight the beautiful interior before them stretched a sward of emirall grein planked 1 drik wooden buildings of old tine 2 diterm with galleries of varying it is design on the second store. On each site of the lawn a sugoth gravit with let to the step, by which one reached a sum curular wooden balcolny nearly hills to the grein planked 1 dresses people. Beyond this war more livens from which came the sould of tennis rackets. A band was playing a wolf.

Not represented the total for a four hand ar rangement of at the 'Augustur' bein of Striuss. On the bulphy she was curiously reminded of the leck of the bolus. Here sat Indiana propose as she had seen tierd. reminded of the bold of the bolds. Here sat just such mople as she had seen there here all seened well acquainted and thoroughly sthe fied with each other and beyond a doult they were uncountinally good looking and extremely well cressed here were no cacant chairs near the steps by which the three entered and they walked nearly to the opposite side before they found places near the band.

places near the band
It was an ordeal for Nora this transit
past batteries of glasses many curious
many admiring, some indufferent, none it
is fair to say other than pleasant even if one young woman did raise a pair or gold rimmed eyeglasses rather too pronounedly and then lean 'orward and stare at her

and then lean 'orward and stare at her from head to foot. In a few moments after they had taken their seats they saw Mrs Johnson approach-ing She made but slow progress, as sae stopped at near y every groop to arching greetings of little winspered communica-

ent to all rimilar unlit tions. Wien she finally took ler estimate

#### ("o n cont hue!) THE CALIBPEL COUNTRY

The valley lands, submerged during May and June, yield hay of fine quality in profusion; while the bills sloping back gradually from the rive bottoms, are beautifully adapted to passive buttom, and beautifully adapted to passive buttom, and beautifully adapted to passive buttom, and the same several to feed cattle during which it is ever necessary to feed cattle during the winter. Potatoes of a superior multiy are grown by the Indians, who is sell their surplus at \$1 per sack.

While the cultivation of registables generally will not pay in a speculative sense, still set iters can raise every hing they need, and thus said the expenditure of mone, for provisions I am satisfied that there is no section of country of equal extent in the north temperate belt with 1 offers greater; natural advantages to the settler who wants p work and to secture a comfortable home.

The climate is unobjectionable in every sense I am confident that a very few years hence this valley will be settled from end o end, and that the ludians will remove upon the advent of the industrious settler and his family.

Feighting is now lone by boats, which converted the converted that the fine and the settler would be left by the chemist in the interthis year, still I am of the opinion that no micrey would be left by the chemistom would be setured by the picineer steamboal, would be a great factor in the matter.

Reaching Box campon we enter upon the great mineral deposit, which requires a knowledge witch I do not possess, to do it justice. Mr. Chins Connor, which as had a life time s experience in the m nesspring propection of the proposed propers in the more principally in Coloral,—has now located a claim of steel galena ore which is of great extent, and is pronounced by those with have examined it the greater fining their merits.

The town of Metaline new contains twenty five ouses, substantial fog structures, hewn and fill and very confort rathe I are hills around a substant proposed in bothing for paying ore are to be found atting around like

And now that wo are to have an assembly of our rows, that feeling will not be lessued, but intensified. And more, not less gaadlastly and hope oily, will cur faces betweed toward the there for a short these—Chautauqua.

the intest between toward on the per for a short line, that your minds may to filled with the inspiring in uences of the place, while you glance back over the pleasant paths already inversed and then look six allly forward over

tice, that your minds may .e. filled with the impiring in uences of the place, while you glance back over the pleasant parks already inversed and then look steadily forward over the bread field of knowledge upon whose border we stand, that with clear and steadfast gare you may mark out your full us nonvey, and see clearly beyond the hill difficulty of effort, the deckable me untakins of attalpement.

You have now graduated from the "grammar grades," we will say, of this great popular school, and trust that every one of you will say on through the high school department of special courses that many will gain conegiate in the place of your of your may will gain conegiate in the place of your of your may will gain conegiate in the place will still be needed in the future. Discouragement, like Poet aven will often perchable of the couragement, like Poet aven will often perchable of the course ment, like Poet aven will often perchable of the couragement, like Poet aven will often perchable of the course ment, like Poet aven will often perchable of the course ment, like Poet aven will often perchable of the course of the cou

length of difficulty of the jeurbey, and thoy me redirect you tekels warranted to take you swittly and early to every point of interest in the universe, and home again, in four years' time whenever I hear the trite objection that our course of reacing is superficial, that it only gives a meatering of many things and is thor ough in nothing, at reply that the objection is based on a mi-taken idea, that a knowledge of the alphabet it into considered superficial but elementary, and that so, but in a broader sense the C. L. S. C. course is for the great mass of they readers who take it, but a beginning of their knowledge of history, of art, of science and of literature, though even bologians find in it, headers in reabing of the od, much new and useful knowledge of history, of art, of science and of literature, though even bologians find in it, headers in reabing of the od, much new and useful knowledge.

\*\*Lerry true Chautauquan should go straight forward after graduation on some the of study especially use ul or attract v: to him, till he feels to some extent maste of that subject, when some other should be aken' up, and so on His motto should be. "Once a student, all ways a student. You must do this or drop back You can not stand till. Which shall it has Like a seen blade, the mind losse its brightness and keenness by disagle. It cannot be allowed to rust without unit. It must have the triction of contact with (ther and beltar minds if it as to improve. Hero we see the chief use of I oke and the accessity of reading the best, for in them will de lyspeat to us, as our rriends and teachers, the wisestand noblest of our race.

\*\*Unch books contain the net results of the profoundest thought and most labrique investigations of those who have develored their lives to scientific research or literary labor. They give us which we could never hope he gain for our set, ex, for life is too short for us to learn many flugs by personal observation and learning, and were weal scientists and philosophers. How many of the could

fron to even imagine. The right books teach is in our ignorance strengthen us in our weak ress, cousole us in our misfortune befriend us it ness of trouble, lesson our corrows and in creace our 1998, and open to us the realins of

ress, coupole us in our misfortune betriend as it is east frouble, lessan our sorrows and in creace our joye, and open to us the reakins of ever lasting 1 eace.

Yith such friends waiting to speak to us, to twe with us, to impart their wisdom and their negration, and to uplift us foward their own of it losed is it not sad and strange that we should ear sight them and choose instead the entity the it fling or the victous for our common one. Let us hope that no Chantauruan will make a mistake so grave, so inexcusable or you have in pur hands the clue which, followed, cannot fall to guide you aright among the Jahyrini inc mazes of the book world surely there is something in our curriculum for every taste and every capacity. Physical men of, moral and spiritual culture are all provided for and elementary instruction in each is given on the chant quant dears to begin a harmon max development of the whole man, bearing in 1 and always, as Emerson says, that by which in an is sown, the intellect and the moral santiment in the last analysis can never be separated and if e must always rule. This is the fund mental article of our creed, implied if not expressed and it millicences all our work. No physicists are asting save those of the mind and least, and as all human elags seek happiness in one form or another, what can we do better for ourselves and others than to learn low to secure those leating history than to a sure form or another, what can we do better for ourselves and others than to learn low to secure those leating history for learning and the plepane of d mg good increases with our years of the senses. The love of learning and the plepane of d mg good increases with our years for inselves and where says that 'a knowledge of malure, of trads, beauts pinuts rocks and as inow my will have the sting in a tree of the greatest writers says that 'a knowledge of malure, of trads, beauts pinuts rocks and as inow my will law the sting and the plepane of d mg good increases with our years to fine per our exist at all fur

angis "Let ue eat, drink and be merry, for to agrow we die

The skepticism that wil believe only in what I can see, weigh or handle, has permented all clauses, and has well might destroyed in many, all spiritual perception. Il ability to believe in ett grad veritie. The logrand result of its accept suce by the masses is the undermining of helr with in humanity. Ceasing to believe in others, her soon le's self respect, and when that is guide, the run of character is complete. He who has a lofty inted and struces to reach it in spite if frequent to tyre, materially believes that other of the same. There is nothing so darger just to human society to-day, as this blind, and leaf spirit of unbelled nothing to darger ones and unite all lovers of their race in determined opposition to its encroachments and talse ordensions. But it has already done its worst, and its power has begun to wanse. Even the houghless are finding that after it has taken away faith in rod, trust in man and hope for he future it has nothing to offer in their etaal and tooth, and distrust in things but the chance if nothingness.

Thoughtful men, honest doubters, succers seekers after truth who are repelled from religion by a hard, narrow, false presentation of it, are realizing that, probe deep as they will, and lyze carefully as they may they cannot lay bare who have made great discoveries, they can only think ford's thoughts after him. The deeper, he most phlosophigal celentusts, accept the ruth, that beyond law there is a law-giver (beyon) nature there is a creative power) that ask of matter—even though it may "contain he potency of every form of life," as Tyndall hirks—there is an elemal mind. With him, here believe that "now, in less than in the days of Job, there is a power, which hy secrething we cannot find out," And with Matthew Arnold, they believe that this is the same "external jourer that makes for righteousness." As super at long five way before the attucks of science and inverse on the long reasonable solution of the roo liem of h

one is more honored and revered to-day than that of Alfred, who taught his people the a is of per e, the rudiments of learning and the princip se of religion? Though he was a brave solicie and skillful general, and defended his couldry as a trice king a sould, it is not for these chirgs he is remembered, out it is because of his unparalleled devo ion to the highest interests of his people and he it trebes efforts to improve heir condition—rom the time we read o him as a boy of twelve, winn ug from his mother Lie prize of a handsome book by being the first to learn to read it, till he dots his land with institutions of learning and snatches time from the busy case to translate Latin works into the anguage of the common people, he is a ways he same patient, faithful, unselfish teacherains, as unapproactable in the lofty noblish of its character as he was fortunate in his regal Eyortumitee for usefulness.

For what is the glorious reign of Elizabeth most famous. Nat for wars, nor diplomacy, out for the splendid flowers of learning that Jurist into sudden bloom in the smeahne of her oy if favor. Even Napoleon, the torn warrior he mightiest conqueror, since Cesar, will be en embered for his fundous cade, and for what he did to benefit his count's, after Austerlitz and we are now sufficiently removed from the excitement caused by the toll of drums, the gitter of arms and showy uniforms, and the smell of guipowder, to realize that it is infinitely robber of a good to men in just this humble was than it is to kill them in even the most righteous war. That this is admitted to be time proves how great is the triumph of right principles. It has not also have a more subjective the most righteous war. That this is admitted to be time proves how great is the triumph of right principles. It has not after the most righteous war that this found the first private him as always some light wherever there is shallow. But they were the times of chirally and knight made right. When were the most righteous war that the good of theme i

High out the old flug in the new Ring out the faise lift, in the true Praise look for the good near the se The best-file earth has ever known And ever to grow better still If we but do our Master's will.

JOHNSON, Express against the market and promises to prevent the market and promises

kets continue excited, with first hands fast parting with their product. At New York the demand for

is their product. At New York the demand for leading descriptions is moderately active, the general markets rolling strong.

HOPS—A parcel of '830' 2s valley came in daring the week. For the mouth shipments East were 16,251 2s, and to Sah Francisco 231' 2s, a total of 16,251 2s, and to Sah Francisco 231' 2s, a total of 16,251 2s, coming from Puget sound, inquiries as 10 the condition of yards and probable yield are being made. The markets appear to prosess more life. At New York the market, though dull, retains a firm feeling, owing to the scarcity of very fine hops and the fact that the growing time has in some localities been injured by lice. Latest cabes rejort a quiet market with the growing erop is good coudition. A San Francisco report says: "Reports of undvorable weather in Esgland, and of lice in some sections of New York; have all stat given the trade something to talk about, and, what is better, have set at in then the speculative puise; which has been for some time in a state of suspended minimation, along withingtimate business. Puring the week about too bales have changed hands at \$37c, and percentage the same of the production of the production of the pulse, and percentage the same and percentage the same and percentage the same and percentage that the state of same and a same and percentage the same and percentage

pound.
HIDES, ETC.-All advices are of quiet to dull, HIDES, ETC.—All advices are of quiet to dull, prices not bding changed. Herd receipts are thir and include a large quantity of shoep and doer pelts. We duote dry hides: 4½00,5%c, high salted \$\text{Worker}\$, heavy do 7628c, dry hip and calf it \$\text{Gic.}\$, heavy do 7628c, dry hip and calf it \$\text{Gic.}\$ salt kip \$\text{Gib.}\$, salt calf \$\text{80,00c}\$, salt veal 8c, valcy decressins \$\text{90,00c}\$ for whiter and summer. \$\text{Eastern}\$ Oregon 150000 for whiter and summer. \$\text{Eastern}\$ Oregon 150000 for whiter and summer. \$\text{Sheepskins 50000}\$ for short and long wond, elk h des 15c, beaver \$\text{31 5002}\$ to 5 ber skins \$\text{31 50 to \$\text{30}\$}. Tailow 303%c for common and \$\text{2334c}\$ for choice.

The Sorchandise Market.

Grain growing sections have been visited with rains, which, although light in character, have been of no h considerable benefit. The outlook for spring wheat cannot be salit to have been materially improved by the rains, but vegetation has been alded and the new moisture means much in other directions. The valley will probably harvest but little less wheat than a year ago, when the eron was not a fail one. As there primises to be no market for cats other than a local one, the smaller crop will not be a serious matter. California can not be looked upon as a buyer, for a large home crop thereigh to put prices down to a cont. A short crop here will aid local values. The enstern section will harvest more barley aid oats than it did last year, and less wheat. The wheat estimate is variously stated to be two-thirds to five-sixths that of last year, most estimates placing it at three-fourths. This we deem a safe inside estimate.

General trade exhibits tew new feature, and none that chu be called especially important. The

they will not go to the combination until forced to, and this may be some tind yet. The California prison factory is turning out bags at a cost of se and is working at a good profit. Its output is not large enought to influence the market. Estimates place the supply in sight at 10,00,000 bags, and that quantify with be needed on this coast. The syndicate's position remains a steak one. Drogon consumers are receiving very few, and those who have not pirchased will 'await developments Sorie are picking up outside lots below syndicate prices. Nominally 1061215c is still quoted. Last advices note free offerings in Sar Francisco call board, and it is thought parties who bought I madelivery some time ago are sautsfed with a small

board, and it is thought parties who bought Jame delivery some time ago are satisfied with a small profit.

The sale on inacket appears to have improved slightly. The parcel of singnood sold at \$1.1845 for domestic shipment is reported sold at an advance. Unjust the run of lish shows an early and material injurorement a great deal of grumbling will be indiffered in. Nearly every camer reports an upput tylow that of this time last year, but each hopes for Juy'to witness a run that will allow them to closely japproach hist year's total. Salmon shipments, for the month of Juna were liberal. There was sent east by rull stage cases to New York via this city. No Columbia river has cleared for sent before a case to New York via this city. No Columbia river has cleared for eight to date. The Nith, Beeunat and Helensiea er in berth.

New York mail dates and to Jime 23. Cloves were higher and there was a firmer feeling in perpor. Befored sugars enjoyeds fair demand, values being about sheatly, but the easier endeancy of the Lindon market checked in juiry from that quarter. Rews tarry active and steady. A sharp decline in London market checked in juiry from that quarter. Rews tarry active and steady. A sharp decline in London market checked in juiry from that quarter, lead to the should be sharp to the sale should be sharp to the sale shade less. The decline structurated dmill and values were sone lower. To a plate ruled dmill nand values were sone lower. To a plate ruled dmill nand values were sone lower. DR. JOHN BULL'S

SMITH'S TONIC SYRUP, BULL'S SARSAPARILLA,

The Lame Stone Quarry at Rock Paint and Capt Ankeny a Mine-Bouthern Oregon Towns

On Saturday last Mr. H. W. Scott, editor, and On Saturday leaf Mr. H. W. Scott, sentor, and Mr. H. L. Pittock, manager of The Obegovias, accompanied by one of the reporters, started on a trip to Southern Oregon to pay a long-contemplated visit to the Stering mine, and to get a release of their contemplated with the decision of the starters. a glumpse of that portion of the state, which neither had visited for several years. neither had visited for several years. The country along the road to Resebuty was familiar to all and but little attracted attention except familiar faces on the platforms at the various towns passed and the fact that the groun fields did not present their usual promise of a boundful harvest.

Learning firm Superintendent J B and, who was not the grain, that a freight true was

woman's suffrage question, which he manners well
Mass Louise Bell—"Sketches from the Life of Mary Somerville," had evidently read a number of bographies of that lady and crilled the most interesting portions. A short and very pleasant account of her life was given.

Rella Burnham—"Force of Will, "displayed per bably more study and thought in his essay than any other of the class. He treated his subject in a clever and comprehensive manner, showing that the will properly directed and sufficiently niged will conjust all obstacles.

Hersey played in a very charming manuer some pretty Scotch airs, which were heartily encored. How W P Fenton then delivered the address to the class, which was a thoughtful treatment of an old theme. He handled it in a new manner in that the only express charge he gave the class was that "whatever you do, do it well." Mr. I blip Wassern an, president of the board of directors, presented the diplomas, making a few appropriate remarks on the subject.

After the presentation Mr. Abe L. Danziger brought a large cray on portrait of Prof. Warren out on the platform and in the name of the class presented it to the professor as a slight token of their esteem. Prof. Warren feelingly thanked the class, and after a few words of advice called on Miss Hersey to play mother selection on the puano, which was greeted with load appigues by the auchence. Miss Hersey is certainly a finished musician, having the true artist c purit, for she seems to lose all thought of both her audence and even herself in her masse.

The class, all stauding then sang the "Parture."

The Lame Stone Quarry at Rock Point and Capt Ankeny's Mine -Bouthern Oregon Towns of Interest

On Saturday last Mr H. W. Scott, ed tor, and On Saturday last Mr H. W. Scott, ed tor and Mr H. L. Pittock, manager of The Ordon Lan, accompanied by one of the reporte a, started on a tru to Southern Gragon to pay a long-contemplated want to the Sterling mine, and to get a glimpee of that portion of the State, which nelither had visited for several years. The country along the road to Reseburg was familiar to all and but little attracted attention except familiar faces on the platforms at the various towns passed and the fact that the grain fields did not present their usual profits of a beautiful between the control of the contro

fields did not present their usual profiles of a bountiful harves. Learning from Superintendent J. Brandt who was on the train, that a freight train was who was on the train, that a freight train was going south from hoseburg the next in rining the party concluded to stay there a! night and embrace the opportunity to make the trip through the Cow creek canyon by nallight. A very pleasant evaluing was spent in he cosy little town, strolling out to the high grounds and across the river to get good views of the place and surroundings, and afterware supping a chat with freshistill bedtine At Octock the next morning we were off in company with S. R. Irwin, superintendent of the Portland Linne and Cement upmpany, who was on his Line and tement quompans, who was on his was to the company's quarry at Rock Point. The parts occupied lies lookout in the caboose and bad a fine view of the fertile and picture-que little railers which the road passes through At Biodie's we hearded a flat on order to have an unot structed view of the canyon ahead a title further on a parts of thisses were seen

operations of noners.

The caryon is a very deep, long and narrow one, the rugged mountains frowning down from great heights, but it lacks the pictures jue beauty of the Chalmbar gying and presents a tameless of appearance which becomes dimost monotones. The summer of the ridge, which divices the Lupqua from the Rogue river valleys presents some time views, as othe tameles, some of considerable length are based through and pear Alementer. as othe tunnels, some of considerable length are passed through, and near Alemaden the road describes a wooderful curie, called the Horseshee Bend, in descending a sleep grade, a dislance of timee miles being traveled to guin shout ZED Jards. A short dislance be joint at instance of the miles of the proof at instance to the control of the curies and held up to our view a questioning in trut, the only ones we saw during the true for fishing from the effects of hydrautic mining, authorph for up them near their sources there was good fishing.

was good fishing.
At brants Pass the train made a short halt,
giving time for a last; glance at the place,
which is the county sear of Josephane county,
and which is tasly to become a place of county. erable importance, having a large body of valuerable importance, having a large body of valuable sugar pine limber in the vicinity and an extensive factory, for converting it into doors, saches, etc., already completed.

Some twelve or fourteen miles heyond the switch the investone quarry was reacled, and as the train was to stay there for some time to leave a lot of cars' to be loaded, we accepted an invitation from Mr Irwin to visit the quarry and inspect the inclined railway and machinery for lowering the cars loaded with the rock down to where they are automatically dumped on the railroad cars. It was a rather fatiguing "limb up the steep mountain side through mauzanta bushes and onk groves, but the trouth was repaid by the sight of a regular mountain of innestone, on which the large quarted are and haufed away had made no visible impression. Hate linear lay where they had been thrown down which would formish a spiendid material for midding and from which please of any required size could be sawed and which when poleabed would present a bestatiff appearance. The towerful

could be sawed and which when polished would present a besignifin appearance. The powerful machinery for lowering the loaded car and at the same time handling up the empty one by means of a wire cable was examined, but the offer of a ride down the rather steep incline was declined by all.

Three short sharp whistles from the locomotive of our train wirned us that time was up, and, burrying down the hill, we climbed aboard and were soon once more out in a and, burrying down the hill, we climbed aboard and were soon once more out in a pratric country, with the track on a targett for miles abead Passing Central Point, we soon arrived at Medford, a bright, thrifty looking town, which has already a number of pretent us looking buildings and which appres to be the town of that section Particularly of a hearty meal, we boarded a crach and in a short time were ratting into Jacksonville. There are many hundre me and courthouse and a number of other substantial brick fuldings but his attituce for it or mirror gives it an air of quiet, and as it is one of the full didings but his attituce for it or mirror medical towns in the edite some of the primitive I tidings show signs of decay. The towns of Med'rid and tentral it at bein, on the rail your and and nearer the center of the printe, are entered to supply to secture the business of the section and the court of the printer. Centring to secure the business of the section than it supplant the older two Lack gonule, is, however, talking of building a tranch to connect with the O \ C and will not yield its supremary without a struggle. We stroked out in the gloaming away up one of the guiches, where hundreds of thou ands of dollars in gold was taken out in days gone by, and woodered what had become of the brought and showed miners whose nets and showed. twonered what had become of the bronzed beatest miners whose picks and shows it turned up the suriferous soil. Jac canville a most interesting history, and one would set time of hearing the incidents of its early state days of old, the days of gol, when sy morning furnished a man for b eakfast when everybody had more money than he and use the case were supposed to the control of the control of

about two hours brought us down into a deep canyon where huge reals in the ground is showed that the grid hunters had been at work and after follow up how the canyon a short distance we heard the rust of water and found a bydrauld "ground" at work in there chasm, while on the equation of a greet us cordinal; and conduct us across a labyrinth of trenches, thuses and shore boxes to a place where the works could be better viewed and to introduce us to Frank hune, one of the most experienced unions on the cosst, superintendent of the extensive works, who has been on the ground every day for many months. To altempt a description of the nine from the hurrier inspection made and the limited know edge of such matter possessed by the will'ar well be folly. Away up on the montain side a because the line of ditch which brought water a distance of seventeen miles and which tran away along the sides of the hills a distance of him miles more before it could be brought down to a point winter the pressure would not be too heavy. From this point two long shaly looking lines of pipe came sitaning down through the woods to the grich, the less distance of seventies of pipe came sitaning down through the woods to the grich, the less flying from every little aperture, showing the fremen dous force impressioned within Howm in the cut stood a man by a "giani" throwing a powerful stream from a six inch gozzie, which rolled ver tocks and sett them whilling to which heaved to her for many lears, and at last the secundated addings became an impeditional control of the part and consequently an great amount of wirk could be done. All those troubles have been overcome and the mine security of what for more than three try four months of the year and consequently an great amount of wirk could be done. All those troubles have been water for about en native all the worked successfully. A huge dan, fit's feet in bight, has been constructed, as to make a reservoir of the great excustion washed cut in past lears, and the linth and reservoir have tw

of the takes out the fatte halt as of fends.

After a first rate denier the grader part of the materials of which were peries and vegetables it originally the affairs patch which furnished from land food for a half breed dersey cow which makes 14 pounds of butter fer work we started back for Medford by way of those the fact that he will be saw another hydraulic mire, owned and operated by the ling, at Chinaman, and passed along up dack as creek, once removed diagglin, and where mining is still carried on in many places, as the first pounds of many places, and the first pound of the farms, and passed along up dack as the first pounds of many places, as the first pounds of many places, and the first pounds of many places, and the first pounds of the farms, on nearly all of which were fields of affaith, watered by trigging the first pounds of the farms, on nearly all of which were fields of affaith, watered by trigging the first pounds of the farms, on nearly all of which were fields of affaith, watered by trigging the farms of many for recent alterations and interactions and interactions and interactions and interactions and interactions.

Stree Fkine enumeration of the democration in the cluster shotograph of the clusters have been brighted to mention the cluster and the first part of the warms of the farms of th

of Jacksonville we had a magnificent view of the Bear Creek valley and the surrounding mountains, neluding Table rock Regretting that we could not make a longer star at Jacksonville, we hurried on to Med ford, and securing a fresh team, hastened on lo Ashland, the hixses however not go ng half as fast as my pet, for then it was only 5 F M., and at the present writing it is 2A M., and the foreman is winting to know if the copy is ever to be all in A sery Jeasant drive brought us to Ashland, passing one hydraulic mins on the way which we stopped to mayer? Ashland is one of the prettiest little towns in Oregon, and all of us regretted that we could not make a longer stay there Away down toward the depot we found the White Sulphur Soring hotel where we drank the "Tragrant" waters, and performed our abit Jons in them with much joy, ate a hearty meal, and then started out to take a hasty view of the town. Bear creek runs through the p ace and furnishes power for the woolen mills as well as water to irrigate the numerous gardens, in which many kinds of flowers, shrube and trees il autshed luxuriantly. In the Talmas office the presens were run by a belt from a wheel in the it me far away up on a high peak of the Shkipous could be seen a huge patch of snow, which fed the stream which adds such a charm to the fown. In from of his hand one residence we ran across Cup McCail, who showed the party around town till about office the presens in the patch of which and twing at the very first opportunity to pay the Jeasant little lown a longer valit, we went to sleep and were whitled off on our home ward jot. The

well.

woman's sufrage quest.on, which he handled well.

Miss Louise Bell—"Skeiches from the Life of Mary Somerville," had endently read a number of blographies of that lady and culled the mist interesting portions. A short and very pleasant account of ber life was given.

Rolla Burn sam.—"Force of Will," displayed probably more study and thought in his seway than any other of the class. He treated his subject in a clever and comprehensive manner, showing that the will properly directed and sufficiently urged will conquer all obstacles.

The evening's programme consisted of the delivering of the salutatory, by Edward Misener, and the valeductory by Eugene Smith, both of which—the former an essay on "Experience" and the valedactory by Engene Smith, both of which—the former an essay on "Experience" and the latter on "Sincerity"—were well composed and delivered in a very fair manner. Miss Chara Mundt sang a soid, "Oh, Haste ye Birds" in a very oleasant manner. Miss Blanche Heisey playes in a very charming manner some pretity botch airs, which were heartily encored. Hon W. D. Fenton then delivered the address to the class, which was a thoughtful treatment of an old theme. He handled it in a new manner in that the only express charge he gave the class was that "whatever you do, do it well."

Mr Philip Wassern an, president of the board of directors, presented the diplomas, making a few appropriate remaks on the subject.

After the presentation Mr. Abe L. Danzig or brought a large crayon portrait of Prof. Watren out on the platform, and in the name of the class presented it to the professor as a slight token of their exteen. Prof. Watren feelingly thanked the class, and after a few words of alivec called on Miss Hersey to play another espection on the plano, which was greated with lond applease by the audience. Miss Hersey is certainly a finished musican, having the true artist capirit, for she seems to lose all thought of the her audience and even herself in her manner.

The class, all starding, then sang the "Parting

mane.
The class, all standing, then sang the "Parting Song," written by one of their number, Miss Montgomer;

NAMELY SONG

MOR STITLE The day the day has come at last The day so bright and glad. And we with all its goldness there is no goldness there

A myst c sedness fills the heart That is not really pain And through our royous music now There stepls a minor strain We il launch upon the sea of life Our crafts both small and frail Together we have striven long To weave a tluy sail

To weare a tiny sail
Together we have labored hard
Ladd 11) wore ye thread,
that is 15 now compiler at hard
that is 15 now compiler at hard
We launch our craft in drad!
But glad hopes he we so in 100
While Mem ry 6 ds as sign
But take any Mem ry with as now
We long to speec sway

Then easily onward we will sail to the order ing wave and wind O error ing wave and wind Surmounting troi bles as we to And leaving the n behind

BEUMON TO-NIGHT The much annual rection of the Alumni as sociation of the High school will be held to might at the building, commencing at 8 o'clock. Folk wing is the programme

PORTIAND, June 39.
TO THE EDITOR OF THE OLDER CALAN
Having criticised my action at the board
meeting last avening, you will doubtless allow
me to point out what appeared to line to be an me to point out what appeared to line to be an open violation of the constitution of the board uself, this having been the manusquing of the action. It became appeared to me that votes on both sides were being cast by persons present not actually enrolled as members. The charman, Mr. Budd, laid it have sumphatically that all proxies must be in writing. To test whether this mode of procedure had been duly observed, I challenged the vote of Mr. John Lewis, he not being a mad ber of the board He had no written proxy of Mr. C. H. Lewis to present, whereupon a no ion provailed—in Lewis, he not being a man her of the board He had no written proxy of Mr. C. H. Lewis to present, whereupon a no ion presented—in spie of the chairman's previous assurance—that his John Lewis's vote be accepted. The motion itself was quite out of order, insumuch as it in whised a virtual rescinding of article he of the constitution of the heart, which prohibits any change in the constitution or by laws, except offer a month's notice at a regular meeting, and consequently, prohibits the sightest intraction of the law meantime. Let, as J. s.y, Mr. D dd put this motion to the meeting, and it was carried, instead of ruling it out of order, as it certainly should have been The point is important, as it would have not also of the case. Furthermore although at the nume it protest appeared to aim see members, it note the a master of genuine terret 1) the from the role supporters of the resolutions that their playing was opposed or affard by unconstitution in his means,—especially as the way, to my mind, their strongest argument argainst the action taken at the previous needing of the board Whipt is the use of making laws to green us, and then deliberately breaking them? Many individual members of the board appears to be rather heay as to the very few details of the constitution under which they exist, but it is surely not be the condition of the premaining officer; left et ourd to be thoroughly well-latormed it say a mattake to suppose that there was anything personal in my chalenge of y tee My is the action under which they exist, but it is surely not see the member of the board. A therefore a first of the condition of the bare and higher, it to insist on the procedure provided for by our is at left, our play be one tight way, as any one can see on reading the constitution of the beard.

PORTLAND, June 30 PORTLAND, June 30
TO THE EDITOR OF THE OLDS ONLY.
The attitude 3: u have take 1 for some time just in the general welfare (1 the Northwest, orging the inerchants here to greater activity for the preservation of trade and commerce, leads me to call the attention of producers and transportations conversations. transportation companies to he fact that unless rates are reduced most materially from points

transportation companies to he fact that unless rates are reduced most materially from points in Rastern Oregon and Washington territory, that wheat raising will be a thing of the past, tecause it is unprofitable to be farmer.

Let any uninterested person to ke a pencil and figure cost—insurance, freigh, etc.—at sput price of wheat in Rogland, and the farmer, who after all is the base of this agricultural community, realizes what I for the past two years the agriculturalist has been it may on his reserve capital, and working at present in the fault if at the fatine will I imbutes his past two years the agriculturalist has feen it may on his reserve capital, and working at present in the fault if at the fatine will I imbutes his past losses, for fost he has, if both fis own mones, that which he has borrowed at trainous interest. Belie farmer only exists the are the mer chants to prospec? The time has come for this farmer to ascert himself for defense. A railroad company is presented by an extraordinary insertif according to market values of the production, allowing the product when the farmer to harvest? If a question of (13 grave importance, and at ast have speedy excisite, not in the manner of our board of trade, after, but before

Live and let live should be the policy of any rompany, and if they will not be the was be made "to fit the crime." Let the merchants of Portland extend their hands to help and assist the farmer by using combined efforts to reduce freights from our hand empire, and reward will follow. Let the board of Frade be a board of taster faire."

THE NARROW SAUJE ROAD.

What is being done between Port and and Duncee

A Trip along the Line new under Construction-The Road to Reach Portland by .he Last of October

A few days ago, in company with Mr H Hawgood, chief engineer, and Mr. W M. Wat son, superintendent of construction, an Oktooniar man went over the line of the Portland & Wi lamette Valley railroad compuny from Dundes, Yambili country to this city. The disparent tance a twenty-eight and one-half miles, and the work is now so far advanced that the expeciation of the projectors of the enterprise,
viz bat the road wil be completed
to a point within the suburbs
of Porland before fall—teems massi on a cer tainty The listory of he (treconian Railway company's half floished enterprises in the Wil-lamette valley, the ill adv'sed lease to the O R & N (o, the abration next of construction from lunder to Portlaid, and the Istigation which is still in progress talvern leafor and lease are well known. What the Oregonian Rad way (o left undone, the Portland & Williamette Valley of mpany are going to me, ramely, give un-broker doubection between Pertiand and Cobing, I ame coping, a distance of 1.22 miles, and be tween Portland and Artik, Polk county, a dis

tance of eight; one miles

A considerable amount of the grading be-

A considerable amout of the grading between Junden and Portland was done by the old conpary five years a ro, and the new work projet begins at the Chesalem liver, "wo miles north of Dundee. This grossing is a treelle 709 feet long, so feet long at the owest p in its the depression, and will have a true 70 feet long All the pike are driven, and a large free is at welk ge ting out the timbers are placing them in petition. There is an easy grade for the next thee inclus to Blair cree, which is spanned by a treetle 1600 feet long, now receiving the finishing it turket. At Blair creek the ascent over the Chehalem mountain begins. It's 24, infler a trestic 1600 feet long, now receiving the hishing truches. At Blak creek the ascent over
the (behalem mountain begins it is 21, miles
from the creek to the top of the gap, and the
grade is 76 feet to the utile. The summit is a
title over 300 feet a zove how water
mark in the Willamette river. The
decrent to the value of the Tualities
is through tedar creek canyen, bordered, with
some of the finest timber in the state, and the
bottom is reached at hiddle on. A short dis
force north of Middleton is the Rock creek
treatie—a tangent 1800 set long and thirty five
feet high. This work is completed except of
course, the rails. Ly it this paint the line of
the old company has been to lowed closely and
nearly all of the old prade has been utilized
North of Rock creek, however, the location is
entirely new, and much better in every respect
than the old one. Of the entire line between
i orthand and lynndes, 73 per cert. Is on a tau
gert and 13 per cent is level. The Tqualiti
inver will be drossed at Bridgeport, by a combination wood and iron Fratt trues. 183 foot & a.m.

centrely new, and much better n every respect than the old one of the entire line between i orthand and lumides, 35 per cent is on a fan gert and 13 per cent is level The Tugaistin liver will be drossed at Bridgeport, by a combination wood and iron Fratt trues, 180 foot soan. Work on this structure is well noder way.

Except Elk rock, just above the While bouse, the most difficult work is the rugged country between the Tugaistin and Gewego. There are saveral deep rock cats of considerable length and much side-bill grading in very heavy timber. Most of this heavy work is in the mile and quarter of hays & Jeffrey's coutract, and barring accident will be finished in four or fire works. All the rest of the grading was done by the company. The treatle work is being done in Facquet & Smith, except one treatle at tring brook, three miles south of Oswego. This is firtly feet high and on a ten-degree durie, and gave the company to listle trouble.

The chief et gineer expects to have the road in peralic nicon Dunce to Elk Bock by the ecd of August, and certainly so laster than the middle of September and it is the intent, on of the company ty haul this year's grain grop whilch is trilutary to the nervow gat grain grop whilch is trilutary to the nervow gat grain grop whilch is trilutary to the nervow gat grain grop whilch is the treat, and the last track will run from the main line to the water's edge, where an incline will be built in side track will run from the main line to the water's edge, where an incline will be built first be cater of the cut, Immediately above the bluff a side track will not from the main line to the water's edge, where an incline will be built first be acted to the bluff and constitute a struck will run from the main line to the water's edge, where an incline will be not the bluff as ide track will run upon a steam barge, and transported to exchange the summard of the bluff and constructing a treatle whose to undatupe shall rest on a ledge of rock just because the bluff and constituted will run

THE ORBODNIAN TOMPANY'S LINES

A bill passed congress last mouth authorizing the construction of a radroad bridge across the Willamette river at Ray's Landing It is not likely to be built this year, but the Oregoman railway company will within a mouth or six weeks put on a ferry bortwent Ray's Landing on the east tank of the Willamete and Fuluariz Landing on the west bank, thus connecting the east and west side livelon. Tracks will be laid on the ferry and the cars transferred The distance is about a mile and a half Authority baying been given to the receiver to borrow more of a rebuild the Santiam bridges, this important work will be commenced in a few days by Receiver Boot, and there is hardly a doubt that the structures will be completed as soon as he line is ingished to Lik rock.
